## BEFORE THE ARIZONA CORPORATION COMMISSION

Pursuant to a meeting with Staff on April 24, 2006 regarding the matters concerning Beaver Valley Water Company (BVWC), in Commission Decision #'s 66388 and 68083; Michael Davoren, as proposed Sole Proprietor hereby requests amendments to the above referenced decisions to reflect the following modifications.

1. The proposed transfer of BVWC to Mr. Davoren shall be deemed approved as of the date of the Commission's Decision date of August 17, 2005 (#68083)
2. BVWC, under the approved transfer above, shall agree to continue the Commission mandated credits for the Commission imposed "overcharges" to BVWC customers from November, 2003 thru August, 2005. Commission's decision #68083 required BVWC to implement said credits amortized over twenty two (22) months; said period has already commenced effective February, 2006. Staff has audited and approved the amounts of overcharges for the specified dates.
3. Commission will allow BVWC to initiate the "new rates" previously approved by the commission in Decision #66388 for the months immediately following the August 17, 2005 date of transfer of BVWC to Mr. Davoren. Said rates, under the approved rate increase will be deemed the approved rates from September, 2005 until a subsequent rate increase is approved by the Commission.
4. BVWC shall agree to file the Commission required annual report for 2005.
5. BVWC will be in total compliance with ADEQ requirements cited in the post inspection report dated along with all other requirements for compliance in Commission decisions #66388 and #68083 no later than September 30, 2006.
6. BVWC will agree to pay a fine of up to \$20,000 to the Commission in the event that its agreements herein are not completed by September 30, 2006. In the event that BVWC can show justifiable cause for any delay in compliance, imposition of fines will be reasonably withheld or mitigated.

RESPECTFULLY SUBMITTED THIS 27th. DAY OF April, 2006

  
Beaver Valley Water Company  
Michael T. Davoren as  
Sole Proprietor
